Certification GREENGUARD	●	●	●	●	●	●	●

This certificate guarantees that the products to be used in indoor rooms comply with strict limits regarding the content of chemical substances, do not contain any detrimental material, have a high recycling rate and thus contribute markedly to improvement of environmental quality.

Bestuhl office chairs are a holder of the certificate GREENGUARD.

BIFMA (Business and Institutional Furniture Manufacturers Association) participates in elaboration of standards and guarantees that only products corresponding to these strict standards come into the market. In addition, the BIFMA certification includes also specific load tests that guarantee high quality and safety of the product.

The bestuhl office chairs were tested in accordance with the standard No. ANSI/BIFMA X5.1 – 2011 Office Chairs.
